#### SECTION 04: First aid measures

4.1 Description of first aid measures

- General information: Seek immediate medical advice.
- After inhalation:
- Supply fresh air and to be sure call for a doctor.After skin contact:
- If skin irritation continues, consult a doctor. Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
  After swallowing:
- Seek immediate medical advice.
- Information for doctor:

4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

#### SECTION 05: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions.
- For safety reasons unsuitable extinguishing agents: Water with full jet

5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire.

- 5.3 Advice for firefighters
- Protective equipment:
- Do not inhale explosion gases or combustion gases. Additional information

Cool endangered receptacles with water spray.

#### SECTION 06: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources.

6.2 Environmental precautions:Do not allow product to reach sewage system or any water course.Inform respective authorities in case of seepage into water course or sewage system.

6.3 Methods and material for containment and cleaning up: Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

ECTION 09: Physical and chemical	properties	
9.1 Information on basic physical and chemic		
General Information		
Physical state	Fluid	
Colour:	colourless to pale yellow	
Odour:	woody	
Odour threshold:	Not determined.	
Boiling point or initial boiling point and boiling range	Not determined.	
Flammability	Not determined.	
Lower and upper explosion limit		
Lower:	Not determined.	
Jpper:	Not determined.	
Flash point:	41,0 °C NFT 60-103 CC	
Decomposition temperature:	Not determined.	
ъН	Not determined.	
Viscosity:		
Kinematic viscosity	Not determined.	
Dynamic:	Not determined.	
Solubility		
water:	Not determined.	
Partition coefficient n-octanol/water (log value)	Not determined.	
Vapour pressure:	Not determined.	
Density and/or relative density		
Density:	Not determined.	
Relative density	0,8550 0,890 D20/20	
Vapour density 9.2 Other information	Not determined.	
	No further relevant information available.	
Appearance:	fluid	
Form:		
mportant information on protection of health	Not determined.	
Auto-ignition temperature: Explosive properties:	Not determined.	
Solvent content:		
Solids content:	0,00 %	
Change in condition	0,00 /0	
-	Not determined.	
Evaporation rate		
nformation with regard to physical hazard cl Explosives	not applicable	
Explosives Flammable gases	not applicable	
Aerosols	not applicable	
Dxidising gases	not applicable	
Gases under pressure	not applicable	
Flammable liquids	Flammable liquid and vapour.	
Flammable solids	not applicable	
Self-reactive substances and mixtures	not applicable	
Pyrophoric liquids	not applicable	
Pyrophoric solids	not applicable

CHEMICAL SAFETY DATA SHEET according to 2020/878/EC (1907/2006/EC Article 31)

ECTION 16:	(continued of page 10)
	Other information
information in to be conside areas thereof.	ion in this safety data sheet is based on the state of our knowledge at the date indicated. The n this sheet must be regarded as a description of the safety requirements for the product, they are not ered a warranty or quality specification and have no contractual value on properties and application. The information contained in this safety data sheet relate to the specific material designated and may with respect to the product associated with another product or process, unless it is specified in the text opt
The required applying all the term of the second se	information complies with EU regulations in force. It does not exempt the user from knowing and ne national regulations in force.
<ul> <li>Relevant</li> </ul>	1
H226	Flammable liquid and vapour.
H228	Flammable solid.
H302	Harmful if swallowed.
H304	May be fatal if swallowed and enters airways.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H319	Causes serious eye irritation.
H331	Toxic if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
	f facilitating the understanding and interpretation of this form of safety data in the same way as the product.
