CHEMICAL SAFETY DATA SHEET according to 2020/878/EC (1907/2006/EC Article 31)

Printing date: 19.12.2022 **PRODUCT** : LEMON BALM ORGANIC HYDROLATE (continued of page 2) Keep ignition sources away - Do not smoke. Protect against electrostatic charges. 7.2 Conditions for safe storage, including any incompatibilities Storage: Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Use only receptacles specifically permitted for this substance/ product. Information about storage in one common storage facility: Not required. Further information about storage conditions: Keep container tightly sealed. Protect from heat and direct sunlight. Store receptacle in a well ventilated area. 7.3 Specific end use(s) No further relevant information available. SECTION 08: Exposure controls/personal protection 8.1 Control parameters Ingredients with limit values that require monitoring at the workplace: Not required. Additional information: The lists valid during the making were used as basis. 8.2 Exposure controls Individual protection measures, such as personal protective equipment General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Wash hands before breaks and at the end of work. Respiratory protection: Use suitable respiratory protective device in case of insufficient ventilation.

- Protection of hands:
- Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

- Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves
- The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
  Penetration time of glove material
- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye/face protection
  - Safety glasses

9.1 Information on basic physical and cher	nical properties	
General Information		
Physical state	Fluid	
Colour:	colourless to pale yellow	
Odour:	characteristic	
Odour threshold:	Not determined.	
Boiling point or initial boiling point and boiling range	Not determined.	
Flammability	Not determined.	
Lower and upper explosion limit		
Lower:	Not determined.	
Upper:	Not determined.

## **PRODUCT** : LEMON BALM ORGANIC HYDROLATE (continued of page 4) 10.4 Conditions to avoid No further relevant information available. 10.5 Incompatible materials: No further relevant information available. 10.6 Hazardous decomposition products: Not determined. SECTION 11: Toxicological information 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity LD/LC50 values relevant for classification: Not determined. • Primary irritant effect: Skin corrosion/irritation No irritant effect. Serious eye damage/irritation No irritating effect. Respiratory or skin sensitisation No sensitizing effects known. Germ cell mutagenicity Not determined.

- Carcinogenicity
- Not determined.
- Reproductive toxicity Not determined.
- STOT-single exposure
- Not determined. STOT-repeated exposure
- Not determined.
- Aspiration hazard
- Not determined.
- Subacute to chronic toxicity: Not determined.
- Additional toxicological information:
- The substance is not subject to classification according to the latest version of the EU lists.
- 11.2 Information on other hazards
- Endocrine disrupting properties
- Substance is not listed.

#### SECTION 12: Ecological information

12.1 Toxicity

+

- Aquatic toxicity:
  - No further relevant information available.
- 12.2 Persistence and degradability
- No further relevant information available.
- Behaviour in environmental systems: Not determined.
- 12.3 Bioaccumulative potential
- No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
- PBT:
- Not applicable. vPvB:
- Not applicable.
- 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.
