

2030803

CHEMICAL SAFETY DATA SHEET according to 2020/878/EC (1907/2006/EC Article 31)

c	ECTION 01: Identification of the substance/mixture and of the company/undertaking
5	1.1 Product identifier
	Trade name: ARNICA MONTANA PEFL Organic Hydroalcoholic Extract
	Article number:
	EPF20211
	1.2 Relevant identified uses of the substance or mixture and uses advised against
	Application of the substance / the preparation
	Cosmetic ingredient Flavouring agent
	Only for industrial use
	1.3 Details of the supplier of the safety data sheet
	Manufacturer/Supplier:
	GOLGEMMA 115, Chemin des Oliviers Tel: +33(0)4.75.21.09.09
	Z.A. de Cocause Mail: fds@golgemma.com
	26150 DIE, FRANCE www.golgemma.com
	1.4 Emergency telephone number:
	FR-ORFILA (INRS):+33(0)1 45 42 59 59
S	ECTION 02: Hazards identification
	2.1 Classification of the substance or mixture
	Classification according to Regulation (EC) No 1272/2008
	GHS02
	Flam. Liq. 3 - H226 Flammable liquid and vapour.
	GHS07
	Eye Irrit. 2 - H319 Causes serious eye irritation.
	2.2 Label elements
	 Labelling according to Regulation (EC) No 1272/2008 Hazard pictograms
	GHS02 GHS07 - Signal word
	Warning
	- Hazard statements H226 Flammable liquid and vapour.
	H226 Flammable liquid and vapour. H319 Causes serious eye irritation.
	- Precautionary statements
	P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233 Keep container tightly closed.
	P240 Ground and bond container and receiving equipment.
	P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
	P403+P235 Store in a well-ventilated place. Keep cool.
	P501 Dispose of contents/container in accordance with local/regional/ national/international regulations.
	2.3 Other hazards
	Results of PBT and vPvB assessment
	- PBT: Not applicable.
	- vPvB:
	Not applicable. (continued on page 2)

SetCTION 05: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing agents: Use fire extinguishing medial extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases. 			
 Seek immediate medical advice. After inhalation: Supply fresh air and to be sure call for a doctor. After skin contact: If skin irritation continues, consult a doctor. After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. 5.1 Extinguishing media Suitable extinguishing agents: (CQ, sand, extinguishing agents: (CQ, sand, extinguishing mowder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 After inhalation: Supply fresh air and to be sure call for a doctor. After skin contact: If skin irritation continues, consult a doctor. After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. Section 05: Firefighting measures S.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing medias suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 After skin contact: If skin irritation continues, consult a doctor. After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
If skin irritation continues, consult a doctor. After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: A.2 Most important symptoms and effects, both acute and delayed No further relevant information available. A.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures C02, sand, extinguishing agents: C02, sand, extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet S.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. S.3 Advice for firefighters Protective equipment: D on t inhale explosion gases or combustion gases.	Supply fresh air a	ind to be sure call for a doctor.	
 After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. 5.1 Indication of any immediate medical attention and special treatment needed No further relevant information available. 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. 5.1 Indication of any immediate medical attention and special treatment needed No further relevant information available. 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing predide to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			ersist, consult à doctor.
 Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media • Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. • For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters • Protective equipment: Do not inhale explosion gases or combustion gases.			
No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media • Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. • For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters • Protective equipment: Do not inhale explosion gases or combustion gases.			
No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media • Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. • For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters • Protective equipment: Do not inhale explosion gases or combustion gases.			
 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			ment needed
 5.1 Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. 			
 Use fire extinguishing methods suitable to surrounding conditions. SECTION 09: Physical and chemical properties

9.1 Information on basic physical and chemic	cal properties
General Information	
Physical state	Fluid
Colour:	brown-yellow
Odour:	alcoholic
Odour threshold:	Not determined.
Boiling point or initial boiling point and boiling range	Not determined.
Flammability	Not determined.
Lower and upper explosion limit	
Lower:	Not determined.
Upper:	Not determined.
Flash point:	24,0 °C NFT 60-103 CC
Decomposition temperature:	Not determined.
рН	Not determined.
Viscosity:	
Kinematic viscosity	Not determined.
Dynamic:	Not determined.
Solubility	
water:	Not determined.
Partition coefficient n-octanol/water (log value)	Not determined.
Vapour pressure:	Not determined.
Density and/or relative density	
Density:	Not determined.
Relative density	0,9350 0,955 (D20/20)

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment - Annex II None of the ingredients is listed.
- REGULATION (EU) 2019/1148
- Annex I RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3))
- None of the ingredients is listed.
 Annex II REPORTABLE EXPLOSIVES PRECURSORS None of the ingredients is listed.
- Regulation (EC) No 273/2004 on drug precursors
- None of the ingredients is listed.
- Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors None of the ingredients is listed.
- National regulations:
- Waterhazard class: Generally not hazardous for water.

15.2 Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

	SECTION 16: Other information
	 The information in this safety data sheet is based on the state of our knowledge at the date indicated. The information in this sheet must be regarded as a description of the safety requirements for the product, they are not to be considered a warranty or quality specification and have no contractual value on properties and application areas thereof. The information contained in this safety data sheet relate to the specific material designated and may not be valid with respect to the product associated with another product or process, unless it is specified in the text of this document. The required information complies with EU regulations in force. It does not exempt the user from knowing and applying all the national regulations in force. Relevant phrases H225 Highly flammable liquid and vapour. H319 Causes serious eye irritation.
* * *	 Training hints Minimum training in occupational risk prevention is recommended for personnel who will handle this product, in the purpose of facilitating the understanding and interpretation of this form of safety data in the same way as the labeling of the product.
