SECTION 10: Stability and reactivity

Partition coefficient (n-octanol/water):

10.1 Reactivity

9.2 Other information

10.2 Chemical stability Thermal decomposition / conditions to be avoided: Not determined.

10.3 Possibility of hazardous reactions No dangerous reactions known.

10.4 Conditions to avoid No further relevant information available.

10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products: Not determined.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

- Acute toxicity:
- LD/LC50 values relevant for classification:
- Not determined. Primary irritant effect:
- on the skin:
- No irritant effect.
- on the eye:
- Irritating effect.
- Sensitization: No sensitizing effects known.

SECTION 16: Other information
The information in this safety data sheet is based on the state of our knowledge at the date indicated. The information in this sheet must be regarded as a description of the safety requirements for the product, they are not to be considered a warranty or quality specification and have no contractual value on properties and application areas thereof. The information contained in this safety data sheet relate to the specific material designated and may not be valid with respect to the product associated with another product or process, unless it is specified in the text of this document. The required information complies with EU regulations in force. It does not exempt the user from knowing and applying all the national regulations in force.• Relevant phrases H225 H319Highly flammable liquid and vapour. Causes serious eye irritation.
 Training hints Minimum training in occupational risk prevention is recommended for personnel who will handle this product, in the purpose of facilitating the understanding and interpretation of this form of safety data in the same way as the labeling of the product.
